

Flexible, fast and comfortable
RA 800 sauber

RA800 sauber

Our RA800 sauber shows its power where we ask for manoeuvrability and speed. The machine drives through doors with a width of 80 cm, has a good turning circle and is 50% faster than a walk behind scrubber. Due to the four wheels, a drive in the back, the machine is comfortable low to get on. The construction of the machine is very stable and robust.

- **4 wheels for better weight distribution**
- **Available with or without chemical dosing**
- **Automatic water dosing, depends on speed**
